RELEVANT EXPERIENCE

Esri

Redlands, CA

Industry Solutions Intern, State & Local Government

Jun '26 – Present

Global leader in GIS technology, location intelligence, and mapping software

- Analyze professional associations and identify emerging industry trends to inform content strategy, customer storytelling, and future marketing campaigns
- Author case studies with customers and partners, translating business outcomes into marketing and sales enablement content
- Develop and manage customer-facing marketing assets through Adobe Workfront and Adobe Experience Manager (AEM), supporting integrated industry marketing campaigns across multiple channels

Lead Pursuits, LLC

Riverside, CA

Product Marketing Analyst

Feb '25 – Aug '25

Market intelligence and lead prioritization platform for government and commercial opportunities

- Developed product demos and investor-facing pitch materials using market research and customer insights to support accelerator campaigns
- Translated customer pain points into buyer personas and journey maps to strengthen product positioning, audience targeting, and go-to-market strategy
- Conducted A/B testing and analyzed HubSpot campaign performance to optimize audience targeting, messaging, and engagement strategies

Mulholland Consulting, Inc.

Riverside, CA

Marketing Assistant

Jan '25 – Aug '25

Civil engineering consulting firm serving public- and private- sector clients

- Conducted market research and competitive analysis to inform marketing strategies, strengthen brand positioning, and identify opportunities across B2G and B2B markets
- Developed corporate marketing materials, client-facing content, and brand messaging in alignment with corporate brand standards
- Implemented Agile workflows, coordinating cross-functional teams, timelines, and stakeholder communications to streamline project delivery

King's Construction

San Francisco, CA

Marketing Coordinator

May '20 – Sep '23

Residential construction and renovation company specializing in remodeling and property improvements

- Managed relationships and communications with high-net-worth homeowners and industry professionals, tailoring messaging to client needs and project objectives
- Developed targeted marketing campaigns and client communications for a high-end residential clientele, supporting customer engagement and business growth
- Leveraged referral marketing and relationship-building strategies to strengthen brand visibility and cultivate new project opportunities

RELEVANT PROJECTS

Esri Summer Hackathon (3rd Place)

Jul '26

Esri's annual intern innovation competition focused on solving real-world challenges with GIS technology

- Collaborated with a cross-functional team to develop PulseMap, a prototype geospatial application for environmental health screening
- Led research and storytelling efforts, presenting the solution to 500+ employees and judges during Esri's intern hackathon; the project earned 3rd place
